Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: If the recitation "...wherein at least one elemental object has the state change propagation means..." is added to the independent claims, the amended claims would appear to overcome the current rejection. However, an additional search will be required. Applicants' representative also asserted that one having ordinary skill in the art would not have been motivated to combine O'Brien and Gibson. The Examiner agreed to consider the argument. However, no agreement was reached. .
